

Excursion nach Wittenberg

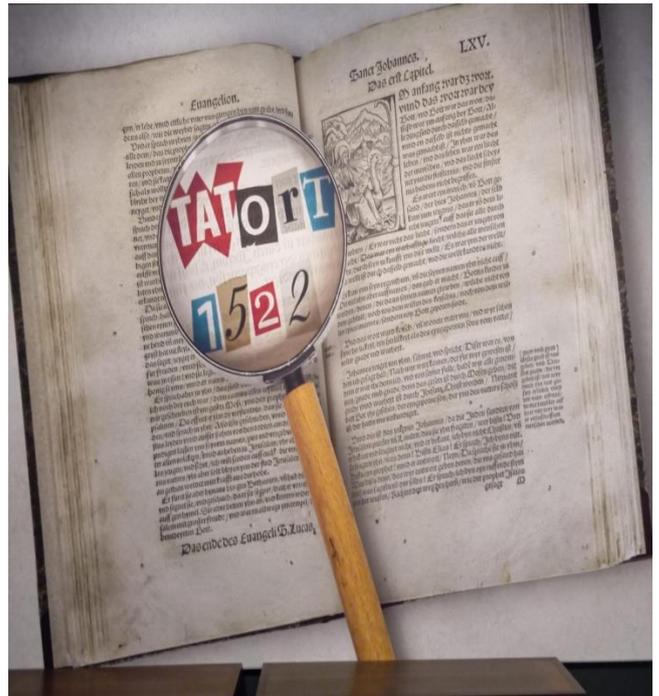

On January 24, 2025, our class 7/2 took a bus trip to Wittenberg, a city full of history and cultural treasures. Despite the bad weather, we were excited about the experiences ahead.

Bad weather but good mood, that was our motto for the day.

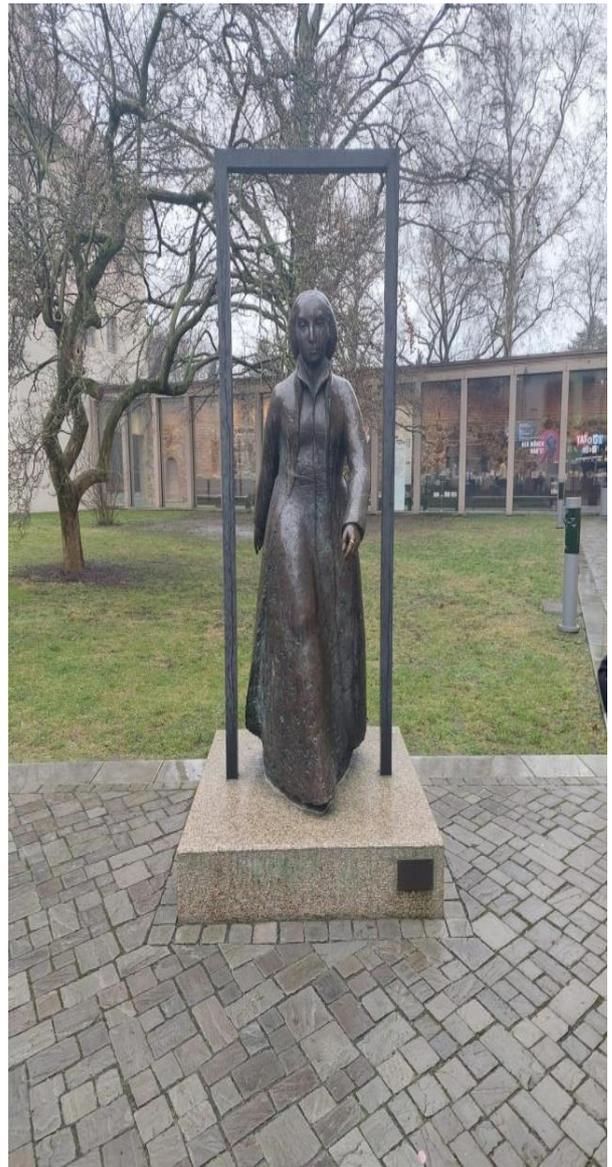

Excursion nach Wittenberg

As our first activity, we went to an escape room. There, we tested our teamwork skills. In small groups, we had to solve puzzles and find clues to escape from the room. It was a lot of fun and very exciting. We worked closely together to overcome the challenges. This experience brought us closer as a team and will remain a great memory. After solving the puzzle, we took pictures in a photo booth.

Excursion nach Wittenberg

Next, we had some free time to explore the city on our own. Some of us went through the beautiful streets, while others took the chance to buy souvenirs in small shops. It was nice to discover the city on our own and learn a bit about its history .

Excursion nach Wittenberg

A highlight of the day was making a Luther Rose. In a workshop, we learned about the symbolism of this rose, which Martin Luther designed as a sign of his religious beliefs. With creativity and skill, we crafted our own Luther Roses. It was exciting to see how each of us created a rose while learning about the Reformation.

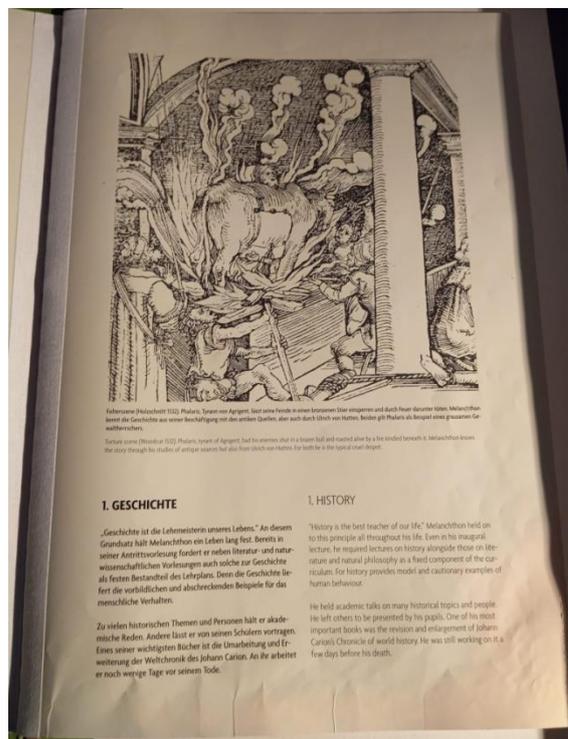

Excursion nach Wittenberg

After that, we visited the Melanchthon House. There, we saw how Melanchthon lived in the past and how close he was to Martin Luther. We saw all the coats of arm on the walls, of his family and friends. We also learned why he is still remembered today.

Conclusion:

Despite the bad weather, our trip to Wittenberg was a great success. We not only learned a lot about the history of the Reformation we also had creative experiences and a lot of fun together. The mix of education, teamwork, and free time made this day unforgettable. We are already looking forward to the next excursion!

Excursion nach Wittenberg

Class 7/4 joined us on this trip, along with our teachers Mr. Ziegler and Mr. Müller.
